METALEX Vietnam to Provide Participants with Wider Range of Opportunities

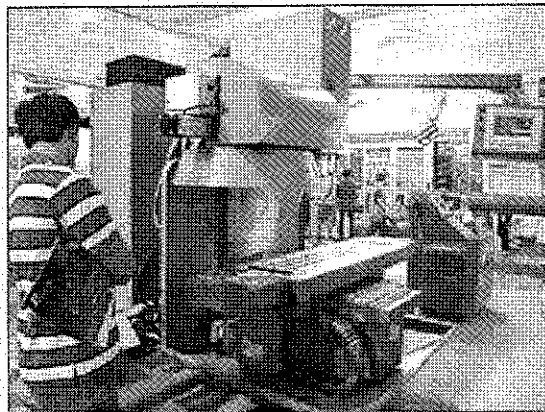

Posted: Thursday, September 03, 2009

"Electronics Assembly 2009"

an exhibition on electronic parts and components manufacturing, co-located with METALEX

Vietnam, will offer you more technologies to experience, more ideas to gain, and more business

opportunities to obtain by meeting manufacturers from the electronics industry.

It will be bringing the rising business opportunities to international technology providers of *Surface Mount Technology Equipment and Services, Test and Measurement Equipment and Services, Electronics Components and Mobile Phone Components, Products Related to Precision Component Parts and Metal Parts, and many more.*

Many technology providers from Singapore have already confirmed to exhibit their products and services in "Singapore Pavilion."

"Robot Demonstration Zone" will highlight extraordinary capacity of new industrial robots for the new level of manufacturing "HITECH Zone" to feature innovations by international inventors from China, Japan, Taiwan, R.O.C., and others.

METALEX Vietnam 2009, the Vietnam's largest metal working machinery and technology exhibition, is to be held October 8-10, 2009 at the Saigon Exhibition and Convention Center (SECC) Ho Chi Minh City, Vietnam. This exhibition brings 500 global brands from 25 countries and another 20 conference topics offering interesting technologies at the show.
